

Mr. Figure\$

Financial Literacy Musical

Stock (Think To Yourself)(Ken)

What did Ken Learn from Mr.Figure\$ during their conversation?

1. Ken learned that after listening to the history of taxes and the power of corporations song, that learning history of money is enough reason for him to learn more financial literacy and to own a business and investing what he save into assets so that he can save more money on taxes and profit from his money to buy and invest more just like the rich did and does..

1.1. Think to yourself, would you invest into assets that would help the economy grow to eventually pay less in taxes?

2. Ken believes that the rich invented money which is not fairly false, but Ken then learns from Mr.figures that the rich invent money by investing into their ideas to turn them into cash flow. Ken learns that all it takes to make money is an idea.

2.2. Think to yourself, have you heard people saying money grow on trees or money don't grow on trees? The confusion is that one side understands that money is paper made from trees and the concept of money is a man-made tool used for trading. The problem is a lot of people use money but don't know where it comes from. But the idea of the dollar bill was an idea before it became valuable and now it's used all over there world. Do you have an idea that you believe can make you money?

Mr. Figure\$

Financial Literacy Musical

Stock (Think To Yourself)(Mr.Figure\$)

What did Mr.Figure\$ Learn from Ken during their conversation?

1.That Ken wants to own a business and invest but he need some money to get started first, his mom nor his dad don't have enough money to give him a loan to start his business so he has to work a job and save first then invest.

1.1. Think to yourself, If you had to work a job to save to invest into your idea, would you? & how would that impact your life?
